

Università degli Studi della Basilicata
Scuola di Ingegneria

PROF. Mario Iamarino

SCIENTIFIC CURRICULUM VITAE:

Mario Iamarino has received his master's degree and PhD in Chemical Engineering from the University Federico II of Naples. In November 2000 he has been appointed by the university of Basilicata as researcher in the field of Chemical Plants. Main research topics are: catalytic combustion in fluidized beds, control and fault diagnosis in chemical batch reactors, alternated wastewater treatment plants, anthropogenic CO₂ and heat fluxes in urban areas. He is co-author of a number of publications appeared in international scientific journals and in conference proceedings and of a monography. He has been visiting researcher at the University of Twente (NL), the King's College London (UK) and the University of Guadalajara (MEX).

PROFESSOR'S OFFICE HOUR:

Wednesday 13:00 – 15:00, 5 floor, School of Engineering building
