

PROF. FRANCESCO SCORZA

SCIENTIFIC CURRICULUM VITAE:

Francesco Scorza (born in Potenza on 04/09/1979) "Assistant Professor of Urban and Regional Planning" at the School of Engineering of the University of Basilicata (ICAR 20, S.C. 08/F1).

Environmental Engineer and Ph.D. in 'Science and methods for European Cities and Territories' at the University of Pisa, conducts research in the fields of Urban and Regional Planning at the Laboratory of Urban and Regional Systems Engineering (LISUT) - University of Basilicata since 2006.

The main research interests concern regional development programming and urban and regional planning. In particular, he develops research on the impact assessment of plans and projects; territorial analysis; participation in planning; advanced knowledge management tools and applied technologies as DSS.

He has been engaged in technical/scientific consultancy for public and private entities, in particular in the field of euro-design and management of transnational cooperation projects. He has participated in numerous research projects funded within EU co-operation programs and, also, he coordinates research projects in the field of assessment of man-made processes and territorial impacts of regional development plans, programs and policies.

He is a referee for international journals and actively participates in the organization of international conferences. He has published in national and international journals and is member of the following scientific communities: AISRE, ERSA, EES, INPUT, ECQTG, ICCSA, INU (secretary of the regional section since 2015).

In 2017 he obtained the "Abilitazione Scientifica Nazionale" for the Associate Professorship (SSD ICAR20, S.C. 08 / F1).
