

Università degli Studi della Basilicata
Scuola di Ingegneria

PROF. IULA ANTONIO

SCIENTIFIC CURRICULUM VITAE

Antonio Iula is associate professor of electronics at the University of Basilicata, Potenza, Italy since 2006. He received the Dr. Sc. degree from the University of Salerno, Italy, and the Ph.D. degree from the University Roma Tre, Rome, Italy, in electronic engineering in 1992 and 1999, respectively.

Prof. Iula works mainly on piezoelectric transducer modeling and characterization for ultrasound applications in biomedical and industrial fields and on piezoelectric motors and actuators. He is author of more than 90 papers in these fields that have been published in international journals and conferences proceedings, and he has been involved in several national and international research programs.

PROFESSOR'S OFFICE HOUR: Wednesday from 12:00 to 14:00. Macchia Romana Campus, School of Engineering (5th floor).
