

Università degli Studi della Basilicata
Scuola di Ingegneria

PROF. RUSSO Maria Grazia

SCIENTIFIC CURRICULUM VITAE:

She held a degree in Mathematics and a PhD in Applied Mathematics and Computer Science, both from the University of Naples Federico II, in 1992 and 1997, respectively.

From 1995 to 2010 she was a researcher in Numerical Analysis at the Faculty of Science, University of Basilicata MM.FF.NN. Since 28 December 2010, she is Associate Professor in the field MAT/08 (Numerical Analysis) first at the Faculty of Engineering of the University of Basilicata and now at the Department of Mathematics, Computer Science and Economics at the University of Basilicata.

Her research topics are related to the algebraic polynomial Approximation Theory, the numerical solution of integral equations, the numerical quadrature. She is co-author of 25 publications in international scientific journals and monographs. She held four invited conferences from a foreign university and 20 communications in international conferences. She acts as referee for some international journals in the fields of Approximation Theory and Numerical Analysis. In 2004 and 2009 she was a member of the organizing committee of the Conference "International Conference on Functional Analysis and Approximation Theory", held in Acquafredda di Maratea (PZ). In 2013 she was a member of the Organizing Committee of the "International Workshop on Approximation Theory and Applications" held in Riferredo (PZ). Since 2007 she is a member of the faculty of the International Doctorate in Mathematics "International Doctoral Seminar Entitled János Bolyai" at the University of Basilicata. She was a member of the University Committee delegated to the writing of the Statute of the University of Basilicata in view of the Gelmini law. She is currently the Coordinator of the Council of Studies in Computer Science and Computer Engineering and Information Technology.

PROFESSOR'S OFFICE HOUR:

Thursday 15.30-17.30
