PROF. DOMENICA MIRAUDA

---

---

SCIENTIFIC CURRICULUM VITAE:

She graduated in Civil Engineering at the University of Basilicata in October 1995 and in 1996-1997 she was responsible for the Hydraulic Modelling and Water Networks Monitoring sector at the TeSiMa Spa company in Rome. In February 2001, she got the qualification of PhD in Hydraulic Engineering for the Environment and Territory at the University of Calabria and worked on a research contract at the University of Basilicata from 2001 to 2005. She collaborated in the didactic activity of different courses in the scientific-disciplinary sector ICAR/01-Hydraulics and ICAR/02- Hydraulic and Maritime Constructions and Hydrology (1998 – 2007). As adjunct professor, she taught the Hydraulic Measures course (2003 – 2008) and the Environmental Hydraulics course (2007 - 2009), at the Engineering Faculty of the University of Basilicata. Since 2001, she has been taking part in research conventions between the Department of Environmental Engineering and Physics of the University of Basilicata and the Region of Basilicata, for the planning and developing of water discharge measures and for the determination of the stage-discharge relations of some cross sections of Basilicata rivers. Since 2005, she has been cooperating with the Regional Agency for the Environmental Protection of Basilicata (A.R.P.A.B.) in the control and monitoring of Basilicata rivers. Since December 2008, she has been assistant professor at the Engineering Faculty of the University of Basilicata in the scientific-disciplinary sector ICAR/01 – Hydraulics. She has published 52 papers on national and international journals and proceedings. In July 2012 she set up an academic spin-off "Environmental Engineering Services Srl", of which she is the administrator. The company mainly deals with planning and developing patents of innovative instrumentations and models for the environmental monitoring of water bodies.
